

Press Release

IVECO BUS announces the creation of Energy Mobility Solution to support the transition to electromobility with confidence

***Energy Mobility Solution** is a new dedicated team created to support IVECO BUS customers in transitioning their fleet to full electric with a comprehensive solution. Through this offer, IVECO BUS aims to provide the best user experience of its zero-emission vehicles.*

Vénissieux, 24th May 2023

Today IVECO BUS announced the creation of a new dedicated team called **Energy Mobility Solution** to help transport operators successfully meet all the challenges of implementing zero-emission mobility by defining the right solution for their projects. With this step, the brand extends its offer to transport operators beyond the supply of electric vehicles to provide a comprehensive solution with expert advice, vehicle and facilities design, and advanced services.

Energy Mobility Solution: to confidently imagine the future in full electric

The implementation of electromobility is a challenge for transport operators. As a true Electromobility advisor, IVECO BUS wants to support its customers in transitioning their fleets to zero-emission with the most efficient 100% electric solution that perfectly matches their final application.

The new dedicated team, **Energy Mobility Solution**, will offer transport operators the complete and optimized management of their electromobility project, from the design of their vehicles and facilities all the way through to their implementation.

It will identify the best charging strategy, the specificities of the vehicle, the sizing of the batteries, the configuration of the chargers and the infrastructure they will need in a complete solution perfectly matching the vehicle's mission.

With **Energy Mobility Solution**, IVECO BUS aims to fulfil its commitment to satisfy customers with a powerful model of electric mobility solutions that will support and facilitate the energy transition in public transport.

IVECO BUS

IVECO BUS is a brand of Iveco Group N.V., a global leader in commercial and specialty vehicles, powertrain, and financial services, listed on the Borsa Italiana in Milan.

A major player in the field of public transport, and among the leading bus and coach manufacturers in Europe, IVECO BUS designs, manufactures and markets a broad range of vehicles that meets all the needs of public and private operators:

- school, intercity and tourism coaches;*
- standard and articulated city buses, including BRT dedicated versions; city midibuses*
- minibuses for all passenger transport missions.*

IVECO BUS benefits from a strong expertise in alternative energies vehicles and is now capable of offering a complete range running on compressed natural gas – fully compatible with biomethane – and in the electromobility field, to suit every kind of transport need. Thus, IVECO BUS positions itself as a reference partner to face the numerous challenges of sustainable mobility.

IVECO BUS employs over 5,000 people across four production units, in Annonay, France, Vysoké Myto, Czech Republic, Brescia, Italy and in Rorthais, France with its electromobility center of excellence.

The extensive IVECO BUS and IVECO service network guarantees assistance around the world wherever an Iveco Bus vehicle is at work.
