

IVECO BUS

Drive the road of change

STREETWAY

STREETWAY

The STREETWAY extends the IVECO BUS offering for city transport with an efficient bus optimized for urban mobility.

This new low-floor city bus offers a choice of 3 lengths – 12 m, 18 m and 18,75 m, and a wide variety of configurations to match different urban transport needs. It is powered by the highly fuel-efficient FPT Industrial engines, available in Diesel and Natural Gas versions, that deliver a clean, cost-effective performance.

Supported by the widespread IVECO BUS service network and extensive offering of connected services, the STREETWAY can be relied on to deliver industry-leading sustainable mobility.

The Streetway at a glance

1 SUSTAINABLE PERFORMANCE

- High-efficiency FPT Industrial Cursor 9 engines
- Diesel version with HI-SCR after-treatment system compatible with second-generation biofuels
- CNG version compatible with bio-methane featuring high-capacity tanks for long range

2 OPERATIONAL EFFICIENCY

- Excellent versatility: wide choice of lengths, gearboxes, engines, seat layout and configurations to suit every customer need
- Easy maintenance and optimized TCO through the rationalization of technical solutions

3 NETWORK & SERVICES

- IVECO is always at your side with its extensive service and parts network, wherever you are
- Full set of OEM associated services integrates the product offering

4 PROVEN RELIABILITY

- Robust, proven solutions, with tried and tested components and assemblies
- Durability-boosting features such as the high-quality anti-corrosion treatment for long-lasting body life

Clean city transport

the cost-effective way

The STREETWAY offers a cost-effective solution for sustainable urban mobility: the highly fuel-efficient FPT Industrial Cursor 9 engine combined with the HI-SCR after-treatment system with no active regeneration delivers optimized fuel consumption with extremely low emissions levels. This excellent environmental performance can be further enhanced by running on second-generation biofuels.

Near-zero CO₂ city transport is possible with STREETWAY powered by the Cursor 9 engine in Compressed Natural Gas (CNG) version fuelled with bio-methane. Its high-capacity gas tanks ensure excellent autonomy to provide supremely clean and effective urban mobility solution.

The effective solution for urban mobility

The STREETWAY has been designed in every detail to deliver economic and operational efficiency in urban transport.

The easy maintenance, excellent fuel efficiency of the engine and after-treatment technologies, combined with the cost-efficient, practical design, deliver significant savings and remarkably low Total Cost of Ownership.

With a choice of lengths, gearboxes, engines, technologies, seat set-ups, the STREETWAY can be configured to suit every operator's specific operational requirements – from performance to size and all the passenger capacity they need.

Designed for accessibility and comfort

The STREETWAY prioritises passenger comfort and operational efficiency.

The smart distribution of the interior spaces in both driveline models allows for multiple seating arrangement possibilities to satisfy every need and deliver the best city transport.

The low floor between the front and middle doors provides easy access for all passengers.

The wide low floor space allows for fast passenger flow, while ensuring full disabled access. The STREETWAY can also be fitted with manual or electric ramps with a dedicated area for disabled passengers to travel in comfort.

Urban mobility you can rely on

The STREETWAY is engineered and built to last, consistently performing at its best day after day, year after year. The robust, proven technologies and transport solutions, together with the tried and tested components and assemblies, ensure its exceptional reliability. Durability-boosting features such as the high-quality anti-corrosion treatment for long-lasting body life add to its reliability and contribute to its low TCO throughout its life cycle.

Functional design

The STREETWAY features the stylish design that is the hallmark of IVECO BUS vehicles. The clean lines reflect the bus's quality, simplicity and robustness, while the signature shape of the front end and integrated IVECO logo create a strong family feeling.

A new world of connectivity

The most advanced connectivity on the new IVECO BUS RANGE puts you in full control of your Bus fleet, allowing you to operate efficiently by optimizing the fleet's uptime, energy consumption and Total Cost of Ownership (TCO). **Reduce your costs, improve your performance and make your bus operation & maintenance smarter than ever** by choosing our connectivity and selecting the solution that best meets your requirements.

Find out more about the **commercial packages** you can choose your services from.

Smart Pack

The Smart Pack is included as a series of equipment in all IVECO BUS HEAVY RANGE vehicles. It provides you with Digital services on your Bus Fleet through the following features:

Control Room Support

- Proactive maintenance
- Technical reports

IVECO ON Customer Portal

- Smart reports about operation
- Driving style evaluation dashboards

Premium Pack

The Premium Pack, in addition to the Smart Pack services, provides you with powerful real-time fleet management tools. You can choose the modular options you wish to add to your Smart Pack:

- Real time FLEET MANAGEMENT by Verizon
- TiGR Web API

Premium Pack

Select a fleet management service to help you monitor in real time many indicators such as geolocation, energy consumption, traction battery state of charge or remaining range.

TiGR Web API

The TiGR Web API (specified by the ITxPT association) is a standardized multi-brand fleet management solution. Integrate the data into your own systems and receive real-time events and alerts, vehicle diagnostic trouble codes and all needed KPIs about your fleet performance.

Fleet Management by Verizon Connect

Choose among the three Verizon packages the solution that best fits your needs. In addition to the features shown in the table.

Content / packages	Fleet essential	Fleet essential Tacho + connected ethylometer	Fleet enhanced
Positioning & geofencing	•	•	•
Fuel consumption & score cards	•	•	•
Vehicle health	•	•	•
Driver hours		•	•
Remote tachograph and connected ethylometer download		•	•
Data through web services			•
History Data	12 months	12 months	24 months

The three packages will help you manage your fleet with ease:

FLEET MANAGEMENT BENEFITS

- Improve vehicle visibility with geolocation intelligence
- Stay compliant by recording driver's activities (such as rest and driving hours) and Connected Alcohol Interlock Device data
- Receive advanced reports, monitoring the entire fleet
- Receive alerts based on customized triggers, including triggers from the Connected Alcohol Interlock Device
- Get specific triggers and data necessary for an electric bus fleet real time management: battery state of charge, range, energy consumption, recharge duration

Tailored service solutions

When selecting IVECO BUS you have made a quality choice: you can rely on the best maintenance, high performance parts, and skilled experts ready to help you whenever and wherever you need it – and you are able to work with full peace of mind.

ELEMENTS: customised service packages

With the aim of offering you the best of everything, IVECO BUS has created ELEMENTS: a wide range of tailored service packages, designed to keep your vehicle on the road with minimal interruptions for maintenance and repairs.

Tailor-made service

ELEMENTS is a specialised high-quality service that aims to ensure a long life for every vehicle in all sectors. Combine the “Elements” that best fit your needs in order to create your own tailor-made service package! Choose your Planned Maintenance Contract and Extended Guarantee, by combining the major Elements that make up the offer (Maintenance, Drive Line, Extra Drive Line, Wear) that perfectly suits your business.

The table below summarises all the possible combinations:

PLANNED MAINTENANCE CONTRACTS				
	Maintenance	Drive Line	Extra Drive Line	Wear
 3XL • LIFE	•	•	•	•
 M • LIFE	•			•
 S • LIFE	•			

MAINTENANCE

- Maintenance
- Lubrication
- Oil and fluid changes according to the maintenance and repair handbook

DRIVE LINE

- Engine
- Fuel injection
- Gearbox
- Propeller shaft and axle repairs

EXTRA DRIVE LINE

- Components not already covered by the drive line element
e.g. Electrical System

WEAR

- Clutch
- Brake pads
- Brake discs
- Brake drums
- Brake linings for drum brakes
